The Ministry of Science, Technology and Environment awarded the DIGITAL TELEVISION LABORATORY - LACETEL the National Prize for Technological Innovation in 2019.

The Innovation Award aims to highlight the contribution made individually or jointly by companies producing goods and services, research - development centers, universities and other actors and as another way to stimulate innovation processes developed as part of the Science and Technological Innovation System. It is granted to those scientific, technological and organizational results that contribute to increase the innovation capacity of the company, are aimed at obtaining completely new or significantly improved goods, services and processes that are introduced, managing to influence its impact on the economic, social and environmental level in a concrete and measurable way.

Congratulations to the Lacetel collective for the result achieved and to all who in one way or another contributed to its realization!
