With the presence of Jorge Luis Perdomo Di-Lella Minister of Communications; Marisol Fuentes Ferrer National Secretariat of the Union of Communications, Information Technology and Electronics; José Carlos Del Toro Ríos President of the Government of Correos de Cuba Board and Carlos Ascencio Valerino President of Correos de Cuba, the Annual Balance Assembly 2019 of the Correos de Cuba Business Group is held.

The quality of the services, the computerization of the postal units and the digitalization of the postal processes were among the topics most debated by the participants in the annual balance of the Correos de Cuba Business Group.

After the presentation of a video that included the main results of Correos de Cuba in the year 2019, Carlos Asencio Valerino, president of this Business Group conducted the debates, in which several executives of the OSDE and its companies, other executives and workers, context in which the Minister of Communications maintained an active exchange with the participants.

In the conclusions of the balance sheet, the Minister of Communications acknowledged the progress made by this Business Group, and insisted that this organization has reserves to improve its business management and provide higher quality services to the population, based on the capillarity of the network National postal and the values ??of its workers.

Finally, Perdomo Di-Lella called them to give top priority to the work with the cadres and their reservations; continue thinking about new forms of services, especially those related to electronic commerce; and to continue advancing in the processes of computerization of its units and in the digitalization of postal processes.
