In August, an option was implemented to allow Joven Club account users to recharge their service accounts through Transfermóvil. Since that option was well received by the public, Joven Club designed a promotional offer thinking about benefiting its users. From October 1st to 31st, 2020 for every CUP (Cuban Peso) you deposit in your account, the system will grant you an extra 30 minutes. Do not lose this opportunity, download Transfermóvil, recharge your account with it and obtain more time to enjoy the services offered by Joven Club.
