Dirección de Comunicación Institucional

On October 1st, the Enterprise Radiocuba
celebrates its anniversary, 25 years
broadcasting for Cuba and the world, offering technical supports to the radio and the televisions and executing highly complex engineering projects in the telecommunication sector.

In those 25 years, it has delved into digital transformation.
Radiocuba is consolidated on a daily basis and proves its experience and strength to take on the leading role in the development projects that it has carried out. It is also guiding our nation in the search for a solid infrastructure for the communications sector in Cuba.

Congratulations to the staff of workers from Radiocuba!
