The Annual Conference on Information Technology, Multimedia and Telecommunications ACIMUTT20 and the International Forum on Digital Television FIDTV20 began

The 5th Annual Conference on Information Technology, Multimedia and Telecommunications - ACIMUTT'20, in conjunction with the 8th International Forum on Digital Television - FIDTV'20 began on November 9, virtually.

The event will take place until November 11, 2020 featuring subjects related to the development of Information Technology, Multimedia and Telecommunications, as well as Digital Television.

Organized by LACETEL, the Telecommunications Research and Development Institute, and sponsored by the Informatics and Communications Business Group (GEIC), ACIMUTT-FIDTV boasts the participation of researchers, engineers and specialists in telecommunications, electronics and software.

In this first session of the event there were 8 presentations from different countries including Japan, Germany, Belgium, Uruguay and Spain.

Cuba was represented with presentations and Magisterial conferences from Lacetel and Cujae.
