Direction of Institutional Communication

This October 1st, Radiocuba Company reaches its 26th anniversary of transmissions for Cuba and the world, offering technical support to radio and television and executing highly complex engineering projects in the telecommunications sector.

Radiocuba consolidates day by day and shows experience and solidity to assume the leading role in the development projects that our nation has carried and is carrying out in search of a solid infrastructure for the communications sector in Cuba.

It has in its network 150 centers for the transmission of digital TV signal through 147 digital transmitters in SD for an estimated coverage of 76.2% and 52 digital transmitters in HD, for 45.7% of the population with access.
Congratulations to the great collective of Radiocuba workers that even in difficult situations, due to the Covid-19 pandemic, maintain the Radio and Television signals for Cuba and the world!

For her part, the Minister of Communications, Mayra Arevich Marín, from her official Twitter account congratulated the staff of Radiocuba - Señal Radio y TV #SomosRadiocuba.

Congratulations to the collective of @RadiocubaSTX for their #26AñosDeTransmisiones! @MINCOMCuba is proud to count on its workers, who guarantee the airing of #Cuba's radio and TV stations and implement the DTT transition process. #SomosRadiocuba
