The Ministry of Communications of Cuba joins the celebration of World Standards Day, which takes place every year on October 14.

This was announced by Yoandy Lazo Alvarado, director of Technological Development at Mincom on his official Facebook account: #MINCOM celebrates World Standards Day reaffirming its commitment to continue promoting this activity through the Technical Committee for Standardization (CTN) 18 and 50, which deal with the topics of information technologies and telecommunications, respectively. We also extend our congratulations to all the members of CTN 18 for the recognition they received from the #ONN this morning.
